**“A strong medical community is crucial to the long-term development of our community and the attraction and growth of new and existing businesses.”**

*Vision 2011: Look Up and Beyond the Horizon*  
Muncie – Delaware County Chamber of Commerce

December 10, 2010

Dear Friend,

We have all felt the impact of the recession. Some more than others. Every weekday, the doctors and nurses at Open Door Health Services see the recession’s impact on the faces of our neighbors who suddenly find themselves under- or uninsured.

Demand for affordable primary care is at an all time high – and Open Door Health Services is responding. As one of America’s Health Centers, we provide an *open door* to affordable and accessible health care for our neediest neighbors by narrowing health disparities, eliminating low birth weights, and reducing chronic diseases and unnecessary hospitalizations.

**Together, we can produce healthier families and healthier neighborhoods... right here in Delaware County. Imagine the difference.** Infants, children and adults are healthy enough so that they can live, learn, work and play – and contribute to a healthy and prosperous community.

Primary care is a necessity for linking learning, health and prosperity (Muncie Action Plan). Please help us help our neediest neighbors by making a gift to Open Door Health Services Charity Care Fund. Your gift this holiday season will pay for health and dental services, and medication and medication co-pays, that many of our neighbors can no longer afford. **Together, we can give the gift of health to our neighbors in Delaware County.**

With gratitude,

Toni R. Estep CEO

P.S. If you would like to discuss making a gift of securities or a planned gift, please contact Genet Soule, development coordinator, at 765-287-3005.
