

**OPENDOOR**  
HEALTH SERVICES

Psychological  
Assessment &  
Consulting, PC

June 1, 2019

Dear patient,

We are pleased to let you know about a new relationship between Psychological Assessment and Consulting and Open Door Health Services.

On June 1, PAC became part of the Open Door behavioral health team. Dr. Alan Maugherman continues to oversee patient care as Director of Behavioral Health at Open Door.

It is important that you know your experience as a patient remains unchanged as a result of this transition. All services, therapists, scheduling procedures, and referral processes will remain the same. Your visits will continue to take place in the current location, and your appointment time will not change.

For services received prior to June 3, billing information will come from PAC. For services received June 3 and after, billing will come from Open Door.

As a result of this transition, you will gain ready access to Open Door's additional healthcare and social service resources in Muncie and Anderson. Open Door offers primary care for all ages, dental care, and a variety of support programs, as well as income-based sliding fee discounts. If you are interested in receiving care in any of these areas, we invite you to visit [opendoorhs.org](http://opendoorhs.org) to learn more, or to call (765) 286-7000 to schedule an appointment.

Open Door Health Services is a not-for-profit health center with a mission to improve quality of life. At the heart of that work is ensuring expert care for all, regardless of insurance or income status. The providers and staff of PAC are eager to continue serving you with this mission as part of Open Door.

If you have questions about the transition, please don't hesitate to call us at (765) 381-4578.

Sincerely,

Alan Maugherman, PhD, HSPP  
Director of Behavioral Health
